

WG-0300GL, Laboratory Washer 300L

Applicable to environmental protection systems, health systems, quality inspection systems, food and drug inspection systems, customs systems, public security systems, agricultural systems, forestry systems, power systems, tobacco systems, water companies, universities, research institutes, etc.; Enterprises, pharmaceutical companies, cosmetics companies, petrochemical companies, steel companies, biological products companies, third-party testing companies, etc. use: It can be used for cleaning all kinds of glass, ceramic, metal or plastic materials in the laboratory, and can also clean volumetric flasks, conical flasks, blue cap bottles, reagent bottles, injection vials, chicken hearts bottles, jars, flasks, beakers, Measuring cylinder, colorimetric tube, petri dish, test tube, pipette, tissue tissue culture vessel, separatory funnel, etc.

Model	WG-0300GL
Dimension (HxWxD) mm	1385x935x775
Number of cleaning layers	3 layers
Chamber volume	308L
Circulation pump flow rate	0-900L/min adjustable
Heating Power	4kw/18kw
Basket identification system	Standard
Installation method	Free standing
Washing capacity (For example)	25ml Volumetric flask 216 seats 100ml volumetric flask 126 seats Sample vials 714 seats Pipettes 238 seats Petri dishes 224 seats

WGB-Z01
Upper level basket frame
With two connectors,
Used to connect 2
injector inserts
Auto self-sealing docking
valve H140, W536, D562mm

WGB-Z03
Upper level basket frame
To load shelf
Height adjustable
Built-in spray arm
H183, W535, D552mm

WGB-Z05
Upper level basket frame
To load shelf
Height adjustable
Built-in spray arm
H152, W536, D567mm

WGB-K08
Injection Module
8 injections
For 500-2000ml
Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø6xH220mm
H253xW140xD488mm

WGB-K11
Injection Module
10 injections
For 500-2000ml
Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø6xH220mm
H253xW140xD488mm

WGB-K21
Injection Module
21 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø4xH160mm
H183xW192xD488mm

WGB-K31
Injection Module
36 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø4xH160mm
H164xW204xD511mm

WGB-Z02
Lower level basket frame
With two connectors,
Used to connect 2
injector inserts
Auto self-sealing docking
valve
H158, W528, D566mm

WGB-Z04
Lower level basket frame
To load tray and
shelf
H79, W529, D546mm

WGB-Z06
Lower level basket frame
Double level
Built-in spray arm
H226, W529, D569mm

WGB-K10
Injection Module
10 injections
For 500-2000ml
Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø6xH220mm
H253xW140xD488mm

WGB-K20
Injection Module
21 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø4xH160mm
H253xW192xD488mm

WGB-K22
Injection Module
21 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø2.5xH110mm
Ø4xH160mm
Ø6xH220mm
H253xW192xD488mm

WGB-K30
Injection Module
36 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø2.5xH110mm
H114xW204xD511mm

WGB-Z11
Full frame injection module
38 pipettes can be loaded in 3 layers
10 pcs 10-100ml pipette, H550mm
14 pcs 10-25ml pipettes, H500mm
14 pcs 1-10ml pipettes, H500mm
H373, W528, D558mm

WGB-K80
Injection Module
84 injections
For 84pcs glass
tubes, centrifuge
tube, test tubes &
so on.
Injector nozzle:
Ø2.5xH70mm
H115xW190xD503mm

WGB-K90
Injection Module
119 injections
Can load 119pcs
glass tubes,
centrifuge tube,test
tubes, sampling vials
& so on. Injector
nozzle: Ø2.5xH45mm
H114xW190xD490mm

WGB-K90/1
Injection Module
119 injections
Can load 119pcs
glass tubes,
centrifuge tube,
colorimetric tubes,
test tubes & so on.
Injector nozzle:
Ø2.5xH90mm
H190xW190xD490mm

WGB-K91
Injection Module
119 injections
Can load 119pcs
pipettes,
Pipettes' maximum
length
can be 460mm
H189xW190xD485mm

WASHERS

Easy Washer

WGB-M36 Injection Module 36 injections

Can load 28pcs
pipettes, 8pcs
Erlenmeyer flasks,
volumetric flask,
measuring
cylinder and so
on
Injector nozzle:
Ø6xH220 mm
H255, W190,
D493mm

WGB-M65 Injection Module 65 injections

Can load 28pcs
pipettes, 28pcs
sampling vials,
9pcs Erlenmeyer
flasks, volumetric
flask, measuring
cylinder and so
on Injector
nozzle:
Ø2.5xH110 mm;
Ø4xH160 mm;
Ø6xH220 mm
H265, W190,
D493mm

WGB-M112 Injection Module 112 injections

Can load 56pcs
pipettes, 56pcs
test tubes
and so on
Injector nozzle:
Ø2.5xH110 mm;
H190, W190,
D494mm

WGB-T101 Full frame 56

Applied to
clean
microbiological
laboratory petri
dish
56 brackets,
70m m in height
H145, W504,
D434mm

WGB-T102 Full frame 56

Only used
together with
TXF-101 Applied
to clean
microbiological
laboratory petri
dish
56 brackets,
70mm in height
H103, W507,
D414mm

WGB-T201 Basket

28 spring clips
are used to
hold the vessel
H116, W220,
D410mm

WGB-T202 Basket

28 spring clips
are used to
hold the vessel
H186, W220,
D445mm

WGB-T203 Basket

21 spring clips
are used to
hold the vessel
H158, W230,
D460mm

WGB-T204/1 Dividing WGB-T204/2 Basket

For funnel,
beaker, jar, etc
H120, W224,
D434mm

WGB-G401 Covernet

For fixing delicate
wash items Used for
WGB-T204

WGB-T401/402 /403/404 Basket

H100, W218,
D218mm The maxi-
mum is 12x75mm
H127, W218,
D218mm The
maximum is
12x105mm H187,
W218, D218mm
The maximum is
12x165mm H230,
W218, D218mm
The maximum is
12x200mm

WGB-G201/ 202 Covernet

Basket covering for
sample
bottle to prevent
the glassware
rushed out.
WGB-G201 is suit-
able for: WGB-K90
WGB-G202 is suit-
able for: WGB-T101/
T102
H 9, W215,
D455mm

WGB-B101 Holder

Professional holder,
Makes the bottles
more stable

WGB-Z101 Pipette cleaning sleeve

For pipettes
Ø8xH116mm
